We went GREEN!

We are so excited to announce that our reopening will begin our partnership with Green Circle Salons to impact the environment by recycling hair clippings, used foil, excess hair color and more! Every guest will get to join us on this go-green journey to support environmental sustainability.

we are thrilled to announce our partnership with **greencircle salons to make your next visit to our salon a sustainable one!**

did you know that your salon visit has an impact on the environment?

before
 because hair, metals & chemical residue cannot be treated by most municipalities, this waste would end up in our landfills and waterways

now
 we've partnered with GCS to turn your:

- hair clippings into hair booms to clean up oil spills, or to be made into pillows for international aid efforts
- colour tubes & used foils into new metal
- chemical residue into new sources of energy

last year...
 Green Circle Salons diverted **560,856 lbs** of solid & liquid waste
